# AccessScan

## Web Accessibility Audit Report

### Website: test-accessible

Scan Date: 5/14/2025, 3:43:40 PM

This report evaluates website compliance with Web Content Accessibility Guidelines (WCAG) 2.1. The assessment includes automated tests that identify potential barriers for users with disabilities.

# Executive Summary

Total accessibility issues detected: 0

Critical issues: 0

Moderate issues: 0

Minor issues: 0

## Compliance Risk Level: High

This report contains actionable recommendations to improve the accessibility of your website and ensure compliance with WCAG 2.1 standards.

# Accessibility Issues

No accessibility issues were found. Congratulations!

# Passing Accessibility Tests

Your website successfully passed 36 accessibility tests, including:

## Aria

' Elements must only use supported ARIA attributes
' ARIA attributes must be used as specified for the element's role
' aria-hidden="true" must not be present on the document body
' Elements must only use permitted ARIA attributes
' ARIA attributes must conform to valid values
' ARIA attributes must conform to valid names

## Name-Role-Value

' Buttons must have discernible text
' Headings should not be empty
' Table header text should not be empty
' Links must have discernible text

## Keyboard

' Page must have means to bypass repeated blocks
' Interactive controls must not be nested
' All page content should be contained by landmarks

## Text-Alternatives

' Documents must have <title> element to aid in navigation
' Images must have alternative text
' Alternative text of images should not be repeated as text

## Parsing

' IDs used in ARIA and labels must be unique

## Forms

' Form field must not have multiple label elements
' Form elements should have a visible label
' Form elements must have labels

## Semantics

' Heading levels should only increase by one
' Banner landmark should not be contained in another landmark
' Contentinfo landmark should not be contained in another landmark
' Main landmark should not be contained in another landmark
' Document should not have more than one banner landmark

- ' Document should not have more than one contentinfo landmark
- ' Document should not have more than one main landmark
- ' Landmarks should have a unique role or role/label/title (i.e. accessible name) combination

## Language

- ' <html> element must have a lang attribute
- ' <html> element must have a valid value for the lang attribute

## Sensory-And-Visual-Cues

- ' Users should be able to zoom and scale the text up to 500%
- ' Zooming and scaling must not be disabled

## Tables

- ' scope attribute should be used correctly
- ' Tables should not have the same summary and caption
- ' Table cells that use the headers attribute must only refer to cells in the same table
- ' Table headers in a data table must refer to data cells

# Additional Recommendations

These items require manual verification to ensure full accessibility compliance:

1. Elements must meet minimum color contrast ratio thresholds
   Ensure the contrast between foreground and background colors meets WCAG 2 AA minimum contrast ratio thresholds

2. Document should have one main landmark
   Ensure the document has a main landmark

3. Page should contain a level-one heading
   Ensure that the page, or at least one of its frames contains a level-one heading

# Next Steps

To improve your website's accessibility:

1. Address the critical issues identified in this report first
2. Implement the recommended fixes for each issue
3. Conduct regular accessibility audits
4. Test with real users with disabilities
